

Freedom Taxi's

Site description: Date: January 2008
Client: Freedom Taxi Ltd

- Website: www.freedomtaxi.co.uk

Freedom Taxi is a growing local taxi company based in Braintree. The Owners wanted a clean simple layout with a blue theme. Freedom also required this to be an information site which included a 'contact us' form so clients can ask for quotes and bookings.

This site is a very good example of our Discovery Package which suited Freedom's needs perfectly.

Testimonial: "We liked the idea of basic packages offered by FireBrush. As we didn't really know a great deal about the web and being on a budget, the basic Discovery Package was ideal for us. The service we recieved was also excellent, everything was explained to us first so that we understood completely. We can also recommend the SEO option as we now rank comfortably high on Google, there's also a great deal of competition in Braintree within the transport industry so this has put us above the competition!"

- Robin Johnson, Managing Director, Freedom Taxi.
