Peter from Ac Ross is a partner in a well established luxury car and coach hire service. He wanted to re-fresh his old site with plenty of images and photography to show the vehicles. He wanted to use our photography services, so we choose a venue and shot Peter's BMW 5 and 7 series luxury cars. Then onto his fleet of multi seater coaches. Put together with a great looking slide show and image lightbox system, potential customers can see that they are getting the best in luxury transport!
